THE GREAT BANK ROBBERY.

HERING'S SAW

WOUNDS THE BURGLARS

AND PRESERVES

\$500,000.

NEW-YORK, March 27, 1861.

MESSRS. HERRING & CO., No. 251 Broadway.
GENTLEMEN.—You have already been well informed, through the columns of the daily papers, of the desperate attempt made upon our Money Vault, and the Fire and Burglar-Proof Safe made by you for our Bank a few years ago. Although our vault was very strongly built, and provided with heavy doors and the best of locks, the attempt upon the Vault was successful.

The robbers succeeded in undermining the Vault by digging a tunnel, some seventy feet long, under the adjoining building, and terminating at the base of the Vault itself. Here they commenced their operations upon a large scale, and, after removing the front part of the heavy stone foundation, which was strongly held in cement, they reached the large flagstones which formed the floor of the Vault. This stone was broken by means of a jack-saw, of great power, and the interior of the Vault thus reached.

Your Safe now became the great point of attack, and bravely did it resist every effort, holding secure its entire trust (property amounting to \$500,000) against all the tools and ingenuity of the burglars.

The first great aim seemed to be to drill into the Safe; but although some thirty holes were made in the outer casing, the harden'd iron forming the cornering turned the point of every tool. Disappointed here, they now attempted to distract the Safe, and endeavored to force the strong framework apart. After removing one bar, and partially cutting off another, they gave this up, and all further operations proved unavailing. Our confidence in your Safe has been reassured; and we would further add, for the benefit of the public, and to your credit, that had they even succeeded in getting through the outer casing or shell of the Safe—which they did not—had three more thicknesses of metal still remained; and each of these, in our opinion, would have given them more trouble than the single one by which they were so completely filled.

When the greatest resources of these burglars are considered, the opportunity to work from Saturday night to Monday morning, the great number of the best kinds of tools in their possession, and the skill and ingenuity displayed, we have reason to feel proud of your Safe.

We wish you to send the largest Safe purchased by us at your store, to our new Banking House, in Greenwich street, and as soon as we get moved you shall have the old one at trophy.

S. VAN DUZER,
President N. Y. Exchange Bank.

HERRING'S CHAMPION FIRE-PROOF SALES, made of Boiler Iron, lined with the new patent CRYSTALLIZED IRON (which cannot be drilled), and inside casing of bars of Steel, are the only reliable security from Bank robbers and experts.

HERRING'S PATENT CHAMPION FIRE-PROOF SALES—the best security from fire now known.
